

## VISION

Best possible outcome, every patient, every time.

## MISSION

To continually improve the health of the people and communities we serve through collaboration with available services.

## VALUES

**S**ervice - provide high quality medical services from fit for purpose premises.

**K**nowledge - continually strive to develop the knowledge of all clinicians and staff.

**E**ngage - effective engagement to help people and communities take greater control of their health and well-being.

**R**espect - treating those we serve and each other with empathy, sensitivity and honesty.

**N**urturing - we are committed to developing our team to their full potential.

**E**conomics - work within allocated budgets and reinvest to improve patient services.
